SUBJECT: Report Back on additional staffing support of SART Committee

At the January 11, 2022 Board of Supervisors meeting, during discussion of Item 18, the Harvey Rose audit of the County's SAFE program, the Board directed Administration to report back regarding the potential of adding additional support positions to help the SART Committee with the analysis and reporting of the process mapping and survivor survey, as well as other data and reporting requests for the Committee.

Administration agrees with the recommendation and will return to the Board shortly after mid-year budget review with a request for an analyst position to help with this important work.

The SCVMC SAFE team will be working in collaboration with the Office of Gender Based Violence Prevention (OGBVP) to identify and recruit candidates to help support and accelerate the analysis and reporting of the data being collected by the Committee.
